LET'S PLAY

Outdoor Spaces for Primary Schools

Synthetic Turf Management (STM) have been designing playground surfaces for over fifteen years with offices in the North, Midlands and South of England.

It's simply what we love to do...

SYNTHETIC TURF MANAGEMENT

EDUCATIONAL PLAY IN COLOUR (EPIC)

Our amazing playgrounds are the perfect surfacing solution for nursery, primary and SEN schools.

The aim is to support child development through physical activity in a fun learning environment. Our soft surfaces come in colours that incorporate markings for play, education themes and multi-use games.

Our EPIC surfaces are made from synthetic turf and are extremely durable all year round.

EPIC surfaces can be laid onto existing tarmac yards by using our performance 10mm pad and our 24mm EPIC synthetic surface.

REFERENCE

Handale Primary School,
Redcar & Cleveland

“Prior to installation, our playground was dull, uneven and dangerous. We now have a really attractive multi-purpose area which the children love. It is used everyday in a range of ways keeping all personalities happy. Sporty children are constantly active and those who wish to, can sit quietly talking to friends. Children, staff and parents are all delighted with the new surface.”

Mrs Buckley, Headteacher
